Subject: next call January?

All,

I'm taking the relative lack of response to the previous email (and not too much movement on a few key issues) as a reason to postpone the next follow-up call until January; I'll be back in touch early in the New Year to see about setting a time.

Happy holidays to all.

Best,

Eleanore

Rachel et al,

Many thanks indeed for the readout. The Ambassador continues to be interested in updates on the issues discussed below; therefore, we would like to suggest an interagency follow-up call the week of December 13 at working level. I would suggest we hold the call December 15 or 16; could a representative from each agency please indicate your preferred date/time and who from your agency would participate?

Many thanks,

Greetings all,

Following our quite successful outcome in Cancun, we are now entering the stage of bearing down and beginning the hard work of implementation. I wanted to send out a short note on one particular high priority aspect – that of MRV (including both elements of reporting and review). There's a lot to do.

In the attached is an outline of the MRV-related tasks for both developed and developing countries as laid out by the Cancun Agreement. This includes (b) (5)

(b) (5)

We will be hosting a broad interagency meeting January 19 here at the State Department to debrief and discuss how we envision the work proceeding this year. Kate Larsen, our lead on the MRV/ICA issues, will follow up with your team to begin work on specific tasks going forward.

Thanks in advance for your help and input.

John, Rick, and Shalini,

We are to make a presentation on the US mitigation effort at a UNFCCC "workshop" on developed country mitigation during the Bangkok negotiations; Jonathan will be presenting this Sunday.

Attached is a slide deck (with notes addressing more or less what we'd say about the slides) we plan to use.

Do you have any comments on these (both slides and notes)? I drew from cleared material from both of your agencies to minimize the challenges of reviewing. If you make changes, can you put in another color so we can tell what you've changed?

I am leaving today, but will pick up any changes you propose when I arrive in Bangkok.

Please copy Kate Larsen and Emily McGlynn (Jonathan's new special assistant) on your responses, as I will be en route for the next 30 hours.

Thanks very much,

Christo

As Rob says when he sees me get down over things from time to time, this is too good an idea not to happen. I'm definitely not going to let it effectively die without getting proper consideration.

And I'm very sorry for temporarily forgetting about your mother. I saw the CA area code and just spoke without thinking. I realized what I'd said and felt terrible as soon as it was out of my mouth.

Good Morning Dan,

I just spoke with John Beale regarding a meeting with you and JP. His preference is for just the three of you to meet, at least for this re-introductory meeting.

I have scheduled the meeting for 31 Jan at 10:00am. I have permission to view your calendar and saw that date and time worked for both you and JP.

JP and John can come up to your office, if indeed you are okay with the scheduling of this meeting? Please advise.

Very Respectfully,

See the email below from Dan suggesting setting a meeting a meeting with John Beale of EPA with Trigg and Jonathan. If you can let me know when it is after it gets scheduled I'd appreciate it. Not sure if Dan R will attend but let Mary Kay know when it is and Dan might join. John Beale's phone number is 202-564-1176. Thanks,

Thanks for your note Dan. I understand your concern. Next week would be fine. I am in town and can make Tues PM, Thurs AM, or Friday PM work.

An hour would be fine for an initial discussion. I think it would also be helpful for you and I to have 30 minutes for a private meeting either before or afterwards.

I have been back at EPA about two weeks and from every quarter hear unconditional praise for John Thompson from the folks here who work with him. I always enjoyed working with him in the past and have been impressed with our dealings the last few days. I know you know how great he is-just wanted you to know that we do too.

Sorry to miss you at Brian's retirement party. You were missed. In his remarks Brian singled you out as one of the people he most respected and enjoyed working with.

Looking forward to talking next week.

I have received an invitation from SEI to be a member of an advisory group for a project on SLCFs in developing countries that State is apparently initiating and funding. I assume that means your office.

I am hoping we can schedule a time in the next few days for a phone call to discuss. For the next few weeks you can reach me at this email or at Ex 6 - Personal Privacy .

John,

Early next week for me would be Monday because Ex 6 - Personal Privacy on Tuesday may take me out for the rest of the week. If Monday won't work for JP, there is always the following Monday or maybe Tuesday morning; I will depart for Mexico Tuesday afternoon March 22 and won't be back until March 28.

The person to work with on scheduling for me is Deniece Yeboah, whom I've copied on this message.

Best, Dan

Also, just noticed that I think your message went to JP at an EPA e-mail address -- unless he's jumped ship (I hope not!), the one above is more likely to reach him.
